DECLARATION OF JAMES LEE

I, James Lee, declare as follows.

1. I am a partner with the law firm of Boies Schiller Flexner LLP (“BSF”), counsel for Plaintiffs in this matter. I am an attorney at law duly licensed to practice before all courts of the State of Florida and admitted *pro hac vice* for this case. Dkt. 9. I have personal knowledge of the matters set forth herein and am competent to testify.

2. I submit this Declaration in support of Plaintiffs' motion for class certification and appointment of class representatives and class counsel.

3. The three law firms representing Plaintiffs, Boies Schiller Flexner, Morgan & Morgan, and Susman Godfrey (collectively, “Counsel”), have collectively invested significant resources into investigating and litigating this case. Counsel now together move to be appointed co-lead class counsel. *See also* Bonn Declaration; Yanchunis Declaration.

4. Counsel have invested substantial resources and time in the investigation of the factual and legal bases for claims against Google. Among other things, they have:

- Identified and investigated the technological means by which Google surreptitiously and illegally tracks consumers.
 - Analyzed Google's disclosures regarding private browsing mode.
 - Investigated past allegations of Google's violations of privacy interests.
 - Consulted with technology experts to assist in developing the case.
 - Researched and analyzed potential legal claims against Google.
 - Evaluated numerous potential class representatives.

1. Relevant Firm Expertise

5. Boies Schiller Flexner's experience in handling complex class actions is extensive. For years, the firm has successfully litigated cutting edge, high-stakes class actions on both the plaintiff-side and defense-side, giving the firm the experience and knowledge necessary to provide the proposed classes the best representation possible. BSF has used its experience on both sides of significant class action cases to predict opposing counsel's litigation strategy, uncover hidden

1 leverage points, anticipate key issues, and accurately assess risk and manage costs. In the last
 2 decade, BSF has collected billions of dollars in settlements for plaintiffs. But unlike many firms,
 3 BSF also has extensive experience in trying complex cases, including class actions, to verdict.

4 Notable settlements and victories in complex cases include:

- 5 • *In re: Blue Cross Blue Shield Antitrust Litigation*: BSF serves as co-lead counsel
 6 in a class action on behalf of insureds against Blue Cross Blue Shield involving
 7 violations of the Sherman Act. The case was one of the most hotly contested cases
 8 in the last decade, involving over 30 separate defendants, more than 50 separate
 9 law firms, and over 1,000 lawyers. In 2020, Blue Cross Blue Shield agreed to settle
 10 the case for \$2.7 billion, as well as injunctive relief that will impact the health
 11 insurance market across the country. The settlement is currently subject to final
 12 approval by the Northern District of Alabama.
- 13 • *In re: Takata Airbag Products Liability Litigation*: BSF serves as co-lead counsel
 14 in this MDL class action involving a uniform defect in airbag inflators found in cars
 15 made by the world's largest automakers. The Takata Airbag MDL has resulted in
 16 over \$1.5 billion in settlements to date, including specific protections to consumers
 17 who have had their automobiles recalled as a result of the uniform defect. BSF
 18 continues to litigate claims against non-settling parties General Motors, Fiat
 19 Chrysler, and Mercedes Benz.
- 20 • *National Prescription Opiate MDL*: BSF serves as lead counsel on behalf of the
 21 Cherokee Nation, in what was the MDL's tribal bellwether case. BSF recently
 22 secured a \$75 million settlement against the opioid distributors and is preparing for
 23 trial against the remaining defendant pharmacies Walmart, Walgreens, and CVS.
- 24 • *Hoffman v. American Express*: BSF represented American Express at trial and on
 25 appeal in a certified nationwide class action where the plaintiffs sought to recover
 26 more than \$500 million. American Express brought in BSF after the class was
 27 certified, and BSF secured and defended on appeal a judgment in favor of American
 28 Express on all claims.
- *Mikaelyan v. Howard*: BSF obtained dismissal of class action lawsuit asserting
 violation of FACTA based on alleged printing of information on receipts, based on
 inadequacies tied to standing and failure to adequately allege any willful violation.
- *Satchell v. Golden State Warriors*: BSF obtained dismissal with prejudice on
 motions to dismiss brought by an alleged class of millions of users seeking billions
 of dollars in statutory damages, in a data misuse class action involving sound-based
 beacon technology for one of basketball's favorite teams.
- *Benton v. Clarity*: BSF obtained dismissal in a data misuse class action involving
 short-term loans data, after successful motion practice, where plaintiffs sought
 billions of dollars in damages for millions of users, on the basis of the Fair Credit
 and Reporting Act.

- 1 • *Pavone v. LexisNexis*: BSF defeated class certification in a precedential data misuse
 2 class action involving driver and vehicle data, which could have negatively affected
 3 the ability to use millions of public records nationwide.

4 6. Through its creative, aggressive, and efficient approach to litigation, combined with
 5 its proven track record of success, BSF has earned a world-class reputation in the class action
 6 arena. The firm “is known as the go-to law firm for high stakes, high profile litigation” (*The*
 7 *Washington Post*), and has been described as a firm of “casual brilliance” (*The National Journal*),
 8 a “Galaxy of Bright Lights” (*The American Lawyer*), and “the most powerful litigation turbine
 9 America” (*Law Dragon*). Some of the most sophisticated companies, which have their choice of
 10 virtually any law firm in the country, regularly choose BSF’s litigation expertise for their most
 11 important matters. These clients include and have included, for example, Carnival Corporation,
 12 NASCAR, Oracle Corporation, Federal Express, Atria Group, NextEra Energy, the New York
 13 Yankees, and Sony Corporation of America.

14 7. BSF has the depth and breadth of experience, personnel, and financial resources to
